Abstract

An abstract is a brief summary of a main manuscript. It should be written in ~300 words. The abstract should be written concisely and clearly without any abbreviations, references, or citation. The abstract should be well written and is grammatically correct.

Keywords: There should be five to ten keywords or phrases each separated by a comma

INTRODUCTION

Manuscript should be submitted in .doc, .docx, .rtf files. Manuscript should be around 2000 to 7000 word count [1]. Please do not use MS Word older than the 2010 version. Use only Microsoft Office 2010 or later versions. The main text of the manuscript should appear here with headings as appropriate. Author should mention the type of manuscript on the top of manuscript (research article, review article, case study, popular article, or any other type of article).

Authorship should be carefully listed in a correct order of authors before submitting the manuscript. Author can made addition, deletion, or rearrangement of author names in the authorship list only before the manuscript has been accepted.

Introduce the article properly in paragraphs separated by headings, subheadings, images, and formulae. To avoid errors in the article, author is advised to use the 'spellchecker' function of MS Word. Authors are responsible for obtaining permission from copyright holders for reproducing any illustrations, tables, figures, or lengthy quotations previously published elsewhere.

Article should be written in following order: Title of the Article, Authors, Affiliations, Abstract, Keywords, Main text (including figures and tables), Conflicts of Interest, Ethics Approval, Acknowledgements, Abbreviations and Nomenclature, References, Appendix. Author should not use footnote or endnote for the citation in the article.

Level 6 or H6 Heading: Philosophical approaches: Bryman [7] asserts that there are different views about the scope, range, ordering, and labelling of philosophical approaches.

TABLES AND FIGURES

Authors should submit tables as editable text and not as images. Tables should be numbered (with Arabic numerals as Table 1, Table 2, etc.) and referred to by number in the text. Tables can be placed either next to the relevant text in the article, or on separate page(s) at the end. The captions for the Tables should be provided separated from the text. All Figures and Tables should be numbered and cited. Source of all Figures should be provided.

For all Tables, use the following symbols in order as footnotes: * (asterisk), † (dagger), ‡ (double dagger), ¶ (paragraph mark), § (section mark), || (parallels), **, ††, ‡‡, etc.

Authors should submit Figures as per “**Artwork Guidelines**”. Figures are to be numbered in one consecutive series of Arabic numerals in the order in which they are cited in the text. The captions for illustrations and figures should be separated from the text and collated in a separate section called “Legend to Figures.” Tables and Figures should be self-explanatory.

Figure 1. Figures should their Captions.

Artwork Guidelines

Illustrations, pictures, and graphs should be with the highest quality, and text in the illustrations, pictures and graphs should be readable. Following guidelines enable us to prepare your artwork for the printed issue as well as the online version.

Placement: Figures/charts and tables created in MS Word should be included in the main text. Figures and other files created outside Word (i.e., Excel, PowerPoint, JPG, TIFF, EPS, and PDF) should be submitted separately. Please add a callout in the running text (i.e., insert Figure 1).

Resolution: Rasterized based files (i.e., with .tiff or .jpeg extension) require a resolution of at least 300 dpi (dots per inch). Line art should be supplied with a minimum resolution of 800 dpi.

UNITS OF MEASUREMENT

Authors should follow internationally accepted rules and conventions. Units should be expressed in the international system of units (SI). If other units are mentioned, please give their equivalent in SI.

ABBREVIATIONS AND NOMENCLATURE

Except for units of measurement, abbreviations, and nomenclature when it appears for the first time should be spelled out for the first time.

MATH FORMULAE

Math equations should be presented as editable text and not as images. Simple formulae should be in line with normal text where possible. Use the solidus (/) instead of a horizontal line for small fractional terms, e.g., X/Y. Equations should be numbered consecutively in Arabic numerals if referred explicitly in the text.
